Memorandum for the Record

SUBJECT: Conversation with President GLOMBE on 29 June 1960.

The purpose of this meeting was to present to President GLOMBE, as representative of the Chancellor, a brief review of the origin, history, tasks and structure of the organization, which functions presently as a German intelligence service as trustee of the United States and which will be at the disposal of the German Government as soon as activity in this field is permitted within the framework of the extension of sovereign rights to the German Government. In agreement with my American associates (die amerikanische Seite) I also requested immediate technical support of the German Government in those fields in which, as the result of the transfer of more and more competences from the occupation power to the German Government, German support becomes necessary.

The result of the conversation was:

(1) The German Government is prepared, in principle, to render technical support. This support will be limited to the US Zone until such time as it can be extended, in agreement with the other occupation powers, to the other zones.

(2) With respect to formal confirmation, a brief conversation between Mr. Shute and President GLOMBE will suffice. A special discussion between Mr. McCloy and Dr. ADENAUER is considered at present neither necessary nor appropriate, since it would not seem desirable to give the matter any more official character than is requisite under the circumstances.

- 2 -

(3) Liaison between the organization and the Government will be confined for the time being to contact between GLOBKE and Dr. S. It is mutually agreed that there is no present necessity for a personal interview between Dr. S. and the Chancellor, since there is mutual agreement on principles and since President GLOBKE has the appropriate authority to act for the Chancellor.

Along with this agreement, technical contacts will become necessary from time to time. These will be arranged in each individual case by agreement between President GLOBKE and Dr. S.

(4) The Government expressly desires that, during the developmental phase of the VS, the organization render assistance in CI matters for investigative work against communism. In this connection, the Government will make its investigative wishes known and, as the case may be, provide the necessary means.

(5) Dr. S. will obtain the concurrence of his American associates to this arrangement. Details will be resolved as they arise.
